DEPARTMENT HANDBOOK

Department of Electrical & Electronics Engineering

Academic Year 2025 – 2026

Established 1962 | B.E. (EEE) – Intake: 60 | Ph.D. Research Centre

1. About the Department

The Department of Electrical and Electronics Engineering (EEE) was established right from the inception of P.E.S. College of Engineering, Mandya in the year 1962. Established with a vision to produce competent and skilled engineers, the department offers undergraduate and research programmes. The Electrical & Electronics Engineering Programme has been accredited by NBA for 3 years (2023-24 to 2026-27).

The department emphasises imparting quality education, rigorous teaching-learning, hands-on expertise, and helping students shape their all-round personality. With its strong pool of faculty, well-developed laboratories, and the latest software and hardware facilities, the department contributes to the development of life-long learning skills in its students. It also produces worthy researchers through its doctoral research programme.

The academic programmes are designed and updated keeping in view the constantly changing industrial needs, emerging skills, and challenges arising from new research. The department has always exerted its best effort to achieve technical excellence in the areas of High Voltage Engineering, Power Electronics & Drives, Control Systems, Power Systems, Energy Systems, Analog and Digital Electronics, Signal Processing, PLC & SCADA, and Microcontrollers.

The department regularly organises industrial visits and technical lectures by experts from industries and institutes in contemporary areas, bridging the gap between syllabi and current developments in the field.

1.1 Department at a Glance

Department Name	Electrical & Electronics Engineering (EEE)
Established	1962 (from the inception of PESCE)
Parent Institution	P.E.S. College of Engineering, Mandya (Est. 1962)
Affiliation	Visvesvaraya Technological University (VTU), Belagavi
Autonomous Status	UGC Autonomous (2008-09)
Accreditation	NAAC – A Grade NBA Accredited (2023-24 to 2026-27)
Programme Offered	Bachelor of Engineering (B.E.) in Electrical & Electronics Engineering
Approved UG Intake	60 students per year
Programme Duration	4 Years (UG)
Research Programme	Ph.D. (VTU, Belagavi & University of Mysuru)
Key Technical Areas	High Voltage Engineering, Power Electronics & Drives, Control Systems, Power Systems, Energy Systems, Signal Processing, PLC & SCADA, Microcontrollers
Department Page	https://pesce.ac.in/dep-electrical-electronics-engg.php

1.2 NBA Accreditation History

Programme Name	Duration	Period	Valid Upto
Electrical and Electronics Engineering	6 Years	2017-18 to 2022-23	30/06/2023
Electrical and Electronics Engineering	3 Years	2023-24 to 2025-26	30/06/2026

2. Vision, Mission & Programme Objectives

2.1 Vision

"The department of E & E would endeavour to create a pool of Engineers who would be technically competent, ethically strong and also fulfil their obligation in terms of social responsibility."

2.2 Mission

The Department of Electrical and Electronics Engineering is committed to:

Code	Mission Statement
DM1	Adopt the best pedagogical methods and provide the best facility, infrastructure and an ambience conducive to imbibe technical knowledge and practise ethics.
DM2	Group and individual exercises to inculcate the habit of analytical and strategic thinking to help students develop creative thinking and instil team skills.
DM3	MoUs and sponsored projects with industry and R & D organisations for collaborative learning.
DM4	Enabling and encouraging students for continuing education and moulding them for a life-long learning process.

2.3 Programme Educational Objectives (PEOs)

Graduates of the programme will be able to:

PEO	Objective
PEO 1	Excel in professional career and/or higher education by acquiring knowledge in mathematical, computing, and Electrical & Electronics Engineering principles.
PEO 2	Analyse real-life problems and design Electrical & Electronics Engineering systems with appropriate solutions that are technically sound, economically feasible, and socially acceptable.
PEO 3	Exhibit professionalism, ethical attitude, communication skills, and teamwork in their profession and adapt to current trends by engaging in lifelong learning.

2.4 Programme Outcomes (POs)

Engineering graduates will be able to:

PO	Description
-----------	--------------------

PO1 – Engineering Knowledge	Apply knowledge of mathematics, natural science, computing, engineering fundamentals and an engineering specialisation to develop solutions of complex engineering problems.
PO2 – Problem Analysis	Identify, formulate, review research literature and analyse complex engineering problems, reaching substantiated conclusions with consideration for sustainable development.
PO3 – Design/Development of Solutions	Design creative solutions for complex engineering problems and design/develop systems, components, or processes to meet identified needs with consideration for public health and safety, whole-life cost, net zero carbon, culture, society, and environment.
PO4 – Investigations	Conduct investigations of complex engineering problems using research-based knowledge including design of experiments, modelling, analysis, and interpretation of data to provide valid conclusions.
PO5 – Engineering Tool Usage	Create, select and apply appropriate techniques, resources and modern engineering & IT tools, including prediction and modelling, recognising their limitations to solve complex engineering problems.
PO6 – Engineer and The World	Analyse and evaluate societal and environmental aspects while solving complex engineering problems for their impact on sustainability with reference to economy, health, safety, legal framework, culture and environment.
PO7 – Ethics	Apply ethical principles and commit to professional ethics, human values, diversity and inclusion; adhere to national and international laws.
PO8 – Teamwork	Function effectively as an individual, and as a member or leader in diverse and multidisciplinary teams.
PO9 – Communication	Communicate effectively and inclusively within the engineering community and society at large, write effective reports and design documentation, and make effective presentations considering cultural, language, and learning differences.
PO10 – Project Management & Finance	Apply knowledge and understanding of engineering management principles and economic decision-making, as a member and leader in a team, and to manage projects in multidisciplinary environments.
PO11 – Life-Long Learning	Recognise the need for, and have the preparation and ability for independent and life-long learning, adaptability to new and emerging technologies, and critical thinking in the broadest context of technological change.

2.5 Programme Specific Outcomes (PSOs)

PSO	Outcome
PSO-1	To understand the concepts in Electrical and Electronics Engineering and apply them to develop modules, analyse, and assess the performance of various power system equipment, generation, transmission, utilisation and protection mechanisms.
PSO-2	Design, develop, analyse and test electrical and electronics systems; deploy control strategies for electrical drives, power system networks, power electronics, high voltage and other related applications.

3. Academic Programme & Syllabus

3.1 Programme Offered

Programme	Degree	Intake	Duration
Electrical & Electronics Engineering	B.E.	60	4 Years
Doctor of Philosophy (Ph.D.)	Ph.D.	–	3–5 Years

3.2 Key Technical Focus Areas

- High Voltage Engineering
- Power Electronics & Drives
- Control Systems
- Power Systems
- Energy Systems & Renewable Energy
- Analog and Digital Electronics
- Signal Processing
- PLC & SCADA
- Microcontrollers & Embedded Systems
- Electric Vehicles (EV) Technology

4. Centres of Excellence & Laboratories

4.1 High Voltage (HV) Laboratory

The High Voltage Laboratory is a Centre of Excellence in the department, supporting teaching and research in High Voltage Engineering, insulation testing, partial discharge phenomena, and power frequency analysis. The lab is equipped with HV testing equipment and supports doctoral research.

Centre of Excellence details: https://pesce.ac.in/img/department/electrical/CENTRE_EXCELELNCE_ee.pdf

4.2 Electric Vehicle (EV) Laboratory

The Centre of Excellence in Electric Vehicles is headed by Dr. Mahesh Kumar K M (ASDC Certified Electric Vehicle Trainer). The EV Lab facilitates hands-on training in EV technology, battery management systems, EV charging infrastructure, and power electronics for EV drives. The lab also supports 'Project Saksham', a programme to empower youth — particularly women — in the EV domain.

EV Lab details:
https://drive.google.com/file/d/1UiPNuxSR6R_64rwoVwP3pMK1nO5VGyTN/view?usp=drive_link

4.3 PLC & SCADA Laboratory

The PLC & SCADA Lab provides students with hands-on experience in programmable logic controllers and supervisory control and data acquisition systems. Regular workshops are conducted in collaboration with industry partners such as Vidyut Automation, through the Industry-Institute Interaction Cell (IIIC) of PESCE.

4.4 Power Electronics & Drives Laboratory

This laboratory supports coursework and research in power electronics converters, inverters, multilevel inverters, motor drives, and renewable energy integration. The lab is equipped with hardware setups for photovoltaic system simulation and smart grid modelling.

4.5 General Laboratory Infrastructure

- Electrical Machines Laboratory for AC and DC machine testing.
- Control Systems Laboratory with simulation and hardware setups.
- Microcontrollers & Embedded Systems Lab.
- Measurement & Instrumentation Laboratory.
- Computer-Aided Electrical Engineering Design (CAED) Lab with MATLAB/Simulink.
- Departmental library and seminar room.

5. Faculty Profiles

The department has 11 teaching faculty members, comprising one Professor, two Associate Professors, and eight Assistant Professors. Many hold Ph.D. degrees with expertise across Power Systems, High Voltage Engineering, Power Electronics, Control Systems, and Renewable Energy.

5.1 Professor

Dr. Gopiya Naik S — Professor

Designation	Professor, Dept. of Electrical & Electronics Engineering
Email	gopiya.naik94@gmail.com
Phone	+91 94812 49509
Research Areas	Power Systems, Smart Grid, Biomedical Engineering, Communication Systems
Ph.D Guide Status	Recognised Research Guide at VTU, Belagavi & University of Mysuru
Ph.D Scholars Guided (Awarded)	Dr. Gowthami Eragamreddy – Solar Powered Plugin Electric Vehicle Energy Management Strategy (VTU, 2024) N Venkata Saichand – Neoteric Decomposition Based Framework for Seizure Detection (University of Mysore, 2024)
Active Scholars	Roopakumar – Communication (Research Work Under Progress) Sai Chand – Biomedical (Research Work Under Progress) Nagananda R – Smart Grid (Research Work Under Progress)

5.2 Associate Professors

Dr. Mahesh Kumar K M — Associate Professor (CAS) & Head of Department (HOD)

Designation	Associate Professor (CAS) & HOD, Dept. of Electrical & Electronics Engineering
Email	maheshkm@pesce.ac.in
Phone	+91 90368 03007
Ph.D Awarded	March 2022 — University of Mysuru Guide: Dr. B Ramachandra Thesis: Investigation of Partial Discharge Phenomena in Paper-Oil Insulation at Power Frequency
Research Areas	High Voltage Engineering, Partial Discharge, Insulation Systems, Electric Vehicles, Power Quality
Ph.D Guide	Recognised Research Guide at VTU, Belagavi

Special Roles	Incharge – Centre of Excellence in Electric Vehicles ASQC Certified Electric Vehicle Trainer Initiated 'Project Saksham' — Programme to empower youth, particularly women, in the EV Domain
Patents	"Prevention of Death On Highway By Accident" — App. No. 202441027229 (Published, 19/04/2024) "Internet of Things (IoT) in Digital Agriculture" — App. No. 202441027158 (Published, 01/04/2024)
Achievement	Faculty Achievement 2024-25: Incharge of Centre of Excellence in Electric Vehicles; ASDC Certified EV Trainer; Initiated Project Saksham

Dr. D M Srinivasa — Associate Professor

Designation	Associate Professor, Dept. of Electrical & Electronics Engineering
Ph.D Awarded	July 2023 — University of Dayananda Sagar Guide: Usha Surendra Thesis: Design Simulation and Analysis of Advance Micro Grid Controller with Inverter for Power Quality in Solar PV Systems
Research Areas	Microgrid Systems, Solar PV Power Quality, IoT in Engineering, UV Disinfection Robotics
Patents	"A Novel Design of UV Disinfection Robot" — App. No. 202241046175 A (Published, 26/08/2022) "Water Surface Cleaning Boat using IoT" — App. No. 202341016402 A (Published, 17/03/2023) "Prevention of Death On Highway By Accident" — App. No. 202441027229 (Published, 19/04/2024) "Internet of Things (IoT) in Digital Agriculture" — App. No. 202441027158 (Published, 01/04/2024)

Dr. C Sunil Kumar — Associate Professor

Designation	Associate Professor, Dept. of Electrical & Electronics Engineering
Email	csunilkumar@pesce.ac.in
Phone	9060971110
Ph.D Awarded	July 2023 — University of Dayananda Sagar Guide: Dr. Puttmadappa C Thesis: Design Simulation and Analysis of Advance Micro Grid Controller with Inverter for Power Quality in Solar PV Systems
Research Areas	Microgrid Control, Solar PV Systems, Power Quality, Waste Segregation AI
Ph.D Guide	Recognised Research Guide at VTU, Belagavi
Patents	"ECO SORT: Intelligent Waste Segregation Solution" — App. No. 202341082667 (Published, 05/01/2024) "Prevention of Death On Highway By Accident" — App. No. 202441027229 (Published, 19/04/2024) "Internet of Things (IoT) in Digital Agriculture" — App. No. 202441027158 (Published, 01/04/2024)
Achievement	Jury Member of State Level Technical Fest – Avaganah-2024 organised by ATMECE, Mysore (2024-25) Resource Person of Workshop on Patent Drafting and Filing organised by VVIT, Mysore (2023-24)

5.3 Assistant Professors

B N Harish — Assistant Professor

Designation	Assistant Professor, Dept. of Electrical & Electronics Engineering
Ph.D Status	Pursuing Ph.D at Christ University (Guide: Dr. Usha Surendra) — Research Work Under Progress
Research Areas	Power Systems, Electrical Drives, Control Systems
Patents	"Prevention of Death On Highway By Accident" — App. No. 202441027229 (Published, 19/04/2024)

Manohara H C — Assistant Professor

Designation	Assistant Professor, Dept. of Electrical & Electronics Engineering
Research Areas	Power Electronics, Electrical Machines, Digital Agriculture IoT
Patents	"Internet of Things (IoT) in Digital Agriculture" — App. No. 202441027158 (Published, 01/04/2024)

Dr. Chethan H R — Assistant Professor

Designation	Assistant Professor, Dept. of Electrical & Electronics Engineering
Ph.D Awarded	August 2024 — VIT, Vellore Guide: Dr. R Mageshvaran Thesis: Power Oscillation Damping in Wind Energy Connected Grid System using Static Synchronous Series Compensator
Research Areas	Wind Energy Systems, FACTS Devices, Power System Stability, IoT Safety Systems
Patents	"A Safety Network System using IoT Technology for Automatic and Remote Controlling of Bus Ride Stations (RENE)" — App. No. 202441006652 (Published, 01/03/2024) "Internet of Things (IoT) in Digital Agriculture" — App. No. 202441027158 (Published, 01/04/2024)

Anusha M K — Assistant Professor

Designation	Assistant Professor, Dept. of Electrical & Electronics Engineering
Ph.D Status	Pursuing Ph.D at VTU (Guide: Dr. Likith Kumar) — Course Work Under Progress
Research Areas	Solar Energy Systems, AI-enabled Renewable Energy, Smart Engineering Applications
Patents	"An AI Enabled Solar Panel Rotation System" — App. No. 202341016403 A (Published, 17/03/2023) "Prevention of Death On Highway By Accident" — App. No. 202441027229 (Published, 19/04/2024) "Internet of Things (IoT) in Digital Agriculture" — App. No. 202441027158 (Published, 01/04/2024)

Achievements	Judge of Largest Science Expo in Mandya organised by Adhyapana Public Charitable Trust® (2024-25) Resource Person of Workshop on Patent Drafting and Filing organised by VVIT, Mysore (2023-24)
---------------------	---

Gaana H — Assistant Professor

Designation	Assistant Professor, Dept. of Electrical & Electronics Engineering
Research Areas	AI in Engineering, Child Safety Systems, IoT Applications, Digital Agriculture
Patents	"Predicting Child Mental Stress using AI" — App. No. 202341016400 A (Published, 17/03/2023) "Water Surface Cleaning Boat using IoT" — App. No. 202341016402 A (Published, 17/03/2023) "Prevention of Death On Highway By Accident" — App. No. 202441027229 (Published, 19/04/2024) "Internet of Things (IoT) in Digital Agriculture" — App. No. 202441027158 (Published, 01/04/2024)
